## WORK HISTORY

---

### Data Annotator

Oct. 2023 – Current

*Data Annotation Tech*

- Review and edit coding and math outputs to ensure data accuracy.
- Employ creative writing and content editing skills within defined parameters.
- Image, video, and audio annotation.
- Meet project deadlines for timely data analysis and model training.

### Shift Supervisor

Aug. 2011 – Oct. 2023

*Rite Aid*

- Successfully developed and improved daily work plans for a two-shift operation.
- Positively reinforced successful shift performance, providing clear, specific, timely and respectful coaching to shift staff.
- Delivered consistent, fair and productive staff management, reducing staff turnover.
- Oversaw inventory management, facilitating smooth operations by maintaining accurate records, which significantly improved inventory accuracy and reduced stock discrepancies in the store.

## PROJECTS

---

### *R-IDE*

- Created an extension in VSCode, using an Agile approach, to streamline the development process using Robot Operating System (ROS).
- Spearheaded the development of the Node Graph to help developers visualize and ensure the communication between their nodes.
- Collaborated on the ROSbag, offering new flexible components to manipulate large data bags.
- Created over 100 code snippets, along with a catalog, to empower and guide new ROS developers.
